Top 3 questions about the flu shot

The flu shot is the best way to prevent influenza, a viral infection that causes many symptoms. Here's what you need to know:

1) Who is most at risk for the flu?

Children, older people, pregnant people, and anyone with a compromised immune system. People who are at higher risk are more likely to experience severe symptoms or complications from the flu.

2) Who should get a flu shot?

Everyone should get it to help protect yourself and the people around you and help prevent the spread of the influenza virus.

3) Can you get the flu from the flu shot?

No, you cannot. You might experience a low fever because your body is responding to the vaccine and building your immunity to the virus.

Las tres preguntas más frecuentes sobre la vacuna antigripal

La vacuna antigripal es la mejor forma de prevenir la gripe, una infección viral que provoca muchos síntomas. Lo que debe saber:

1) ¿Quién corre más riesgo de contraer gripe?

Los niños, las personas mayores, las mujeres embarazadas y las personas con un sistema inmunitario debilitado. Las personas con mayor riesgo tienen más probabilidades de experimentar síntomas graves o complicaciones derivadas de la gripe.

2) ¿Quién debe vacunarse contra la gripe?

Todas las personas deberían vacunarse para protegerse a sí mismas y a las personas de su entorno, y ayudar a prevenir la propagación del virus de la gripe.

3) ¿Se puede contraer gripe con la vacuna antigripal?

No, no se puede. Es posible que experimente un poco de fiebre porque su cuerpo está respondiendo a la vacuna y desarrollando su inmunidad frente al virus.

To qualify for the wellness rate in 2025, you and your dependents will need to complete an annual preventative care exam in 2024. **(January 1, 2024 - December 31, 2024)**

**An annual preventative care exam is covered 100% on both plans.*

****You are not required to personally submit documentation of your preventative exam to qualify for the reduced premium rate (wellness rate).**

A preventative exam = annual physical (general checkup).

To confirm whether your preventative exam has been completed, contact BCBS or your doctor.

You will elect your desired plan for 2025 during Open Enrollment, which runs November 4 - 15, 2024. Watch for expanded details to arrive in your mailbox soon.

Para calificar para la tasa de bienestar en 2025, usted y sus dependientes deben realizarse un examen de atención preventiva anual en 2024.
(Del 1 de enero al 31 de diciembre de 2024)

**El examen de atención preventiva anual tiene cobertura del 100 % en ambos planes.*

****No es necesario que envíes personalmente la documentación de tu examen preventivo para calificar para la tarifa reducida de la prima (tarifa de bienestar).**

Un examen preventivo = chequeo físico anual (revisión general).

Para confirmar si tu examen preventivo ha sido completado, contacta a BCBS o a tu médico.

Elegirá el plan que desee para 2025 durante la inscripción abierta, que se llevará a cabo del 4 al 15 de noviembre de 2024. Esté atento, ya que pronto recibirá más detalles en su buzón.
